

SEPTEMBER 28-30

2012 LOBO/LANCAIR FLY-IN

DOOR PRIZES!

Some of you are coming to the 2012 LOBO/Lancair Fly-In in Sedona, AZ to hang out with old friends and make new ones. Some of you want access to the incredible brain trust of information and to learn to better maintain and fly your Lancair professionally and safely. Some of you will experience one of the most beautiful pieces of landscape in the world. Some of you just want to look at all the Lancair eye candy flying in from all over the country. And finally, some of you are coming for the SWAG! (You know who you are.)

We have great news for the last group, because Two lucky winners will attend Continental Motors Aviation Technician Training course. Held at Continental's facility in Mobile, AL, this advanced, week-long course covers exactly the kind of topics a proactive owner should know like general engine theory of operation, cylinder R & R, fuel injection system fuel pump adjustment, 100-hour/annual inspection topics, cylinder borescope inspections, TCM ignition systems and an in-depth look at TCM service manuals. ([Click here](#) to see full training agenda.)

For a chance to learn about Continental engines directly from the factory experts, sign up for the 2012 LOBO/Lancair fly-in now!

CONGRATULATIONS!
