Duration	25 Minutes
Pricing	Free

You are standing in one of the greatest hiking destinations in the world. We encourage you to experience the magnificence of the Sedona Red Rocks. In our 25 minute clinic we will educate you on the following:

**Finding the right trail:**

With over 150 trails in the Sedona Red Rock Country, it can be a little confusing finding the right trail. The Hike House has created a high definition, interactive technology that “marries your abilities and desires” to the perfect trail. We will be discussing the appropriate trail for each person.

**Getting on the right trail safely:**

We will be discussing the practical tips of hiking the area including: how to create confidence and stability on the trail, hydration, wicking, hiking sticks/poles, how not to get lost, mastering the terrain and wildlife. We look forward to seeing you there.

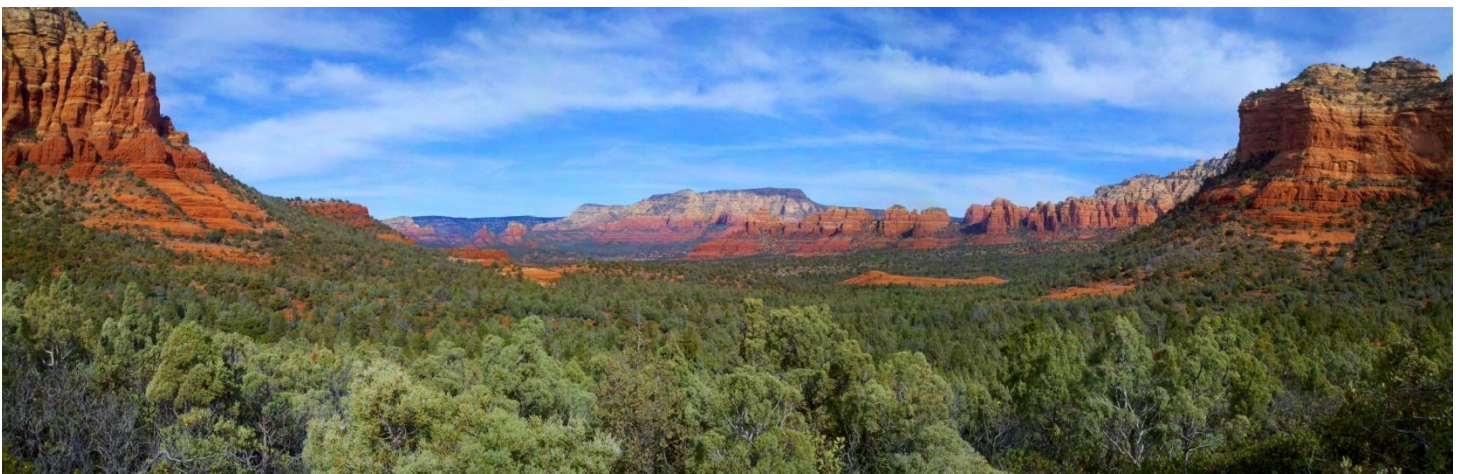

**Guided Hike:**

There is an option of taking a guided hike with The Hike House, there is a 6-8 person limit and for a 2 hour hike it would be \$60.00. They can only take 6-8 people because the National forest is very picky about group size because of the “large footprint” it leaves on the land, that is why size is limited.

Friday, September 28, 2012

There will be a Jewelry show with a local artisan and her pieces will have an aviation theme. It will be on the patio of the Mesa Grill from 2:00pm to 3:00pm on September 28, 2012, which is located at the Sedona Airport restaurant.
