

## 2013 LOBO/LANCAIR LANDING

### AUCTION ITEM!

Some of you are coming to the 2013 LOBO/Lancair Landing at Greenville, SC to hang out with old friends and make new ones. Some of you are coming to learn the best ways to maintain and fly your Lancair professionally and safely. Some of you are coming to experience the lush, verdant countryside in the foothills of the Appalachian Mountains. Some of you are coming just to look at all the Lancair eye candy flying in from all over the country. And finally, some of you are coming for the goodies and gadgets!

We have great news for the last group, because Two lucky winners will attend Continental Motors Aviation Technician Training course. Held at Continental's facility in Mobile, AL, this advanced, week-long course covers exactly the kind of topics a proactive owner should know like general engine theory of operation, cylinder R & R, fuel injection system fuel pump adjustment, 100-hour/annual inspection topics, cylinder borescope inspections, TCM ignition systems and an in-depth look at TCM service manuals. ([Click here](#) to see full training agenda.)

For a chance to learn about Continental engines directly from the factory experts, sign up for the 2013 LOBO/Lancair Landing now!

### CONGRATULATIONS!
