

2013 LOBO/LANCAIR LANDING

A SPECIAL ANNOUNCEMENT!

LOBO and Lancair International are extremely pleased and honored to announce LOBO member, Lancair builder/owner and record-breaking aviator Bill Harrelson as our guest speaker for the dinner banquet at this year's annual LOBO/Lancair Landing, scheduled for 4-6 October at Greenville, NC!

Bill and his wife Sue are both retired airline Captains with more than 50 years of professional aviation experience between them. Together, they built a Lancair 320, gaining notariety in the Lancair community by flying it to Europe and back. The Harrelsons have since built a very special Lancair IV, constructed with the specific goal of long-distance flight. The aircraft is ultra lightweight, fitted with a normally aspirated Continental engine and a specially modified fuel system. In it, Bill has already set new distance records while flying across the vast expanse of the Pacific ocean.

Come to this year's Landing and hear the Harrelson's story about building and flying a record-breaking aircraft, and their future plans to circumnavigate the globe via the North and South poles. Please don't miss an opportunity to share an evening this October with a skilled craftsman, fellow aviator and true adventurer, Bill Harrelson!
