Attendees can look forward to tremendous fun and the opportunity to learn more about building, flying and maintaining Lancair aircraft. The two-day schedule currently being planned will include fact-filled forums, hands-on demonstrations, and informative vendor displays. We are planning optional field trips enjoying the local highlights, delectable food, and will include several ladies activities. You have the chance to show off your Lancair aircraft while appreciating the workmanship of fellow builders. Finally, for those who just love to yak about airplanes, hangar talk 'til your voice gives out. If you're a Lancair enthusiast, don't miss this opportunity to help Lancair International celebrate their achievement of 30 years of continuous service to the world's best personal flying machines. Stay tuned for more upcoming information.
